

# **SPY BLACK MEDIA**

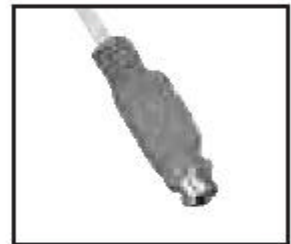

## **MANUEL D'INSTALLATION**

**GB Multimedia Keyboard ET200**

### **Installation Guide**

#### **1. Installation of the keyboard**

- a) Shut down your PC.
- b) Connect the keyboard PS/2 connector (violet) with the PS/2-surface for the keyboard on the PC.
- c) Turn on your PC.

#### **Remark:**

Please do not connect the keyboard with the PC, while the is running. Your computer may get damaged.

#### **2. Software installation**

To use multimedia keys in **Windows® 98**, you must install the software from the diskette provided.

Insert the diskette into the floppy drive.

Click Start ⇒ Run and enter Setup.

Next follow the instructions on your screen.

#### **Please note:**

installation is only required for **Windows® 98**.

In Windows® ME/2000/XP, the multimedia keys work without additional software.

Multimedia keys do not function in Windwos® 95/NT.
